Answer sheet with explanations

Q	Answer	How to get it
1	C	The figure turns 90 degrees anticlockwise each time.
2	B	The dots go down by one each time while the shading repeats its pattern.
3	E	The shape loses one side each time, so a 4 sided shape comes next.
4	D	The shaded quarter turns 90 degrees clockwise each time.
5	A	Four shapes are white outlines. The odd one is filled black.
6	D	Four figures are the same shape simply turned round. The odd one is a mirror image, so no amount of turning can match it.
7	E	Four figures have 2 dots under the shape. The odd one has 3.
8	A	Four shapes are large. The odd one is much smaller.
9	B	Across each row the shape stays the same but turns grey.
10	C	Across each row the shape stays the same but gets bigger.
11	D	Across each row the figure turns 90 degrees clockwise.
12	B	Across each row the shape keeps its dots and gains one more.
13	C	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
14	A	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
15	E	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
16	D	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
