Answer sheet with explanations

Q	Answer	How to get it
1	E	The figure turns 45 degrees clockwise each time.
2	C	The dots go up by one each time while the shading repeats its pattern.
3	D	The shape loses one side each time, so a 3 sided shape comes next.
4	A	The shaded quarter turns 90 degrees anticlockwise each time.
5	B	Four shapes are black. The odd one is a white outline.
6	E	Four figures are the same shape simply turned round. The odd one is a mirror image, so no amount of turning can match it.
7	A	Four figures have 2 dots under the shape. The odd one has 1.
8	C	Four shapes are large. The odd one is much smaller.
9	D	Across each row the shape stays the same but turns grey.
10	B	Across each row the shape stays the same but gets smaller.
11	D	Across each row the figure turns 90 degrees clockwise.
12	B	Across each row the shape keeps its dots and gains two more.
13	A	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
14	E	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
15	C	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
16	E	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
