Q	Answer	How to get it
1	C	The figure turns 90 degrees clockwise each time.
2	B	The dots go down by one each time while the shading repeats its pattern.
3	A	The shape gains one side each time, so a 7 sided shape comes next.
4	E	The shaded half turns 45 degrees clockwise each time.
5	D	Four shapes are white outlines. The odd one is grey.
6	B	Four figures are the same shape simply turned round. The odd one is a mirror image, so no amount of turning can match it.
7	C	Four figures have 4 dots under the shape. The odd one has 3.
8	D	Four shapes are small. The odd one is much larger.
9	E	Across each row the shape stays the same but turns black.
10	A	Across each row the shape stays the same but gets bigger.
11	D	Across each row the figure turns 90 degrees clockwise.
12	B	Across each row the shape keeps its dots and gains one more.
13	E	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
14	A	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
15	C	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
16	B	Only one option is the figure simply rotated. The others are mirror images, which can never match however far you turn them.
